What's included?

- ◇ Introduction
- ◇ Briefing
- ◇ Photo Session
- ◇ Flight
- ◇ De-Briefing
- ◇ Memorabilia

Introduction

When you first arrive you'll be greeted by our friendly staff, meet the pilot and get a brief run down of the events of the day. All amenities are available to the passenger and their guests.

Briefing

The briefing will commence with a short video that gives details on the aircraft, the manoeuvres and important safety points.

The audio visual nature of the video ensures you get the best possible appreciation for what it is you are about to go out and do. This enhances the overall experience because you are better prepared and aware of what is going on when you are doing the flight.

Photo Session

This is probably the most daunting part of the whole experience - many of us are "apposed" to having photos taken - but at the end of the day this is a once in a lifetime experience and after all you do need "proof" of the feat.

Flight

Finally the business end deal. A review of the pertinent safety points is in order then the action begins. The flight itself has many aspects and the experience is very full.

You'll commence with a short taxi out to takeoff. Then from a standing start to 400km/hr in under 15 seconds. You'll go on to experience a range of both high & low level activities from Aerobatics to Air Combat manoeuvres, including loops, barrel rolls, derry turns and host of other goodies including weightless flight - as in no gravity - a lot like been in space!!

Imagine going into a loop at 600km/hr, climbing the height of the Rialto in under a second and 8000' later going over the top looking at the world upside down, then heading straight down with a commanding view of the world pulling

out of the dive a mile and half lower with a force 4 times your body weight. This is the real thing and it doesn't get any better.

Take the biggest meanest rollercoaster and multiply the sheer power by a factor of a thousand and you start to come close to an appreciation of the awesome power of this machine.

Once you have completed the aerobatics and other manoeuvres you'll return to base via a high speed initial and pitch manoeuvre. Then you'll have a healthy respect for the Fighter Pilots of the world.

Guaranteed to thrill - the experience of a lifetime!!

De-Briefing

After we land we have a brief discussion about the flight and answer any questions you have.

You then get to relive the experience with family and friends by watching the video of the flight in our lounge. Broadcast quality video with audio and 3 different camera angles - makes for great viewing and great memories.

Flight Duration

There are three packages that cover the flight described on this flyer. The principle difference is time. The longer flights allow us to ease into the manoeuvres a little more allowing more time to become accustomed to the environment and allow more manoeuvres overall.

Intermediate Adventure	20-23 minutes airborne
Deluxe Adventure	30-33 minutes airborne

But wait there's more !!

What would the experience be without great memories or bragging material ?

You'll receive a CD with digital photo's of the day, a completion certificate, cap, coffee mug, briefing book and framed photo to proudly display.

Additional Information

Give us a call on 1300 7222 41 or visit our website at: www.fighterflights.com.au for more information.

A DVD or VHS video of the flight is available for purchase separately .
