What's included?

- ◇ Introduction
- ◇ Briefing
- ◇ Photo Session
- ◇ Flight
- ◇ De-Briefing
- ◇ Memorabilia

Introduction

When you first arrive you'll be greeted by our friendly staff, meet the pilot and get a brief run down of the events of the day. All amenities are available to the passenger and their guests.

Briefing

The briefing will commence with a short video that gives details on the aircraft, the manoeuvres and important safety points.

The audio visual nature of the video ensures you get the best possible appreciation for what it is you are about to go out and do. This enhances the overall experience because you are better prepared and aware of what is going on when you are doing the flight.

Photo Session

This is probably the most daunting part of the whole experience - many of us are "apposessed" to having photos taken - but at the end of the day this is a once in a lifetime experience and after all you do need "proof" of the feat.

Flight - actual airborne time 50-53 minutes

Finally the business end of the deal. A review of the pertinent safety points is in order then the action begins. The flight itself has many aspects and the experience is very full.

You'll commence with a short taxi out to takeoff. Then from a standing start to 400km/hr in under 15 seconds. You will then track some 80 miles south to the coast and take in some of the most spectacular coastline in the world. To further enhance this magic you'll be doing aerobatics over the top at a height of around 15,000' before descending to take in the spectacular views below.

Your experienced pilot will give you an indepth commentary on the area and point out some interesting facts and the most amazing sights. The world famous Twelve Apostles

from the air in a jet fighter is a sight you will not soon forget.

Imagine going into a loop at 600km/hr, climbing the height of Melbourne's tallest building "The Rialto" in under a second and 8000' later going over the top looking at the world upside down, then heading straight down with a commanding view of the world pulling out of the dive a mile and half lower with a force 4 times your body weight. This is the real thing and it doesn't get any better.

Upon returning to base via a high speed initial and pitch manoeuvre you will have experienced what many can only dream of. A flight in a jet fighter over some of the most spectacular scenery in the world doing aerobatics as graceful as graceful can be. Taking in both low level and high level activities with Aerobatics and Air Combat manoeuvres from "mild to wild" to suit your taste. Including loops, barrel rolls, derry turns and a host of other goodies - not forgetting the weightless flight - just like in space !!

Take the biggest meanest rollercoaster and multiply the sheer power by a factor of a thousand and you start to come close to an appreciation of the awesome power of this machine.

The ULTIMATE adventure - the experience of a lifetime !!

De-Briefing

After we land we have a brief discussion about the flight and answer any questions you have.

You then get to relive the experience with family and friends by watching the video of the flight in our lounge. Broadcast quality video with audio and 3 different camera angles.

But wait theres more !!

What would the experience be without great memories or bragging material ?

You'll receive a CD with digital photo's of the day, a completion certificate, cap, coffee mug, briefing book and framed photo to proudly display.

Additional Information

Give us a call on 1300 7222 41 or visit our website at: www.fighterflights.com.au for more information.

A DVD of the flight is included with this package.
