

Welcome to Australian Jet Adventures!

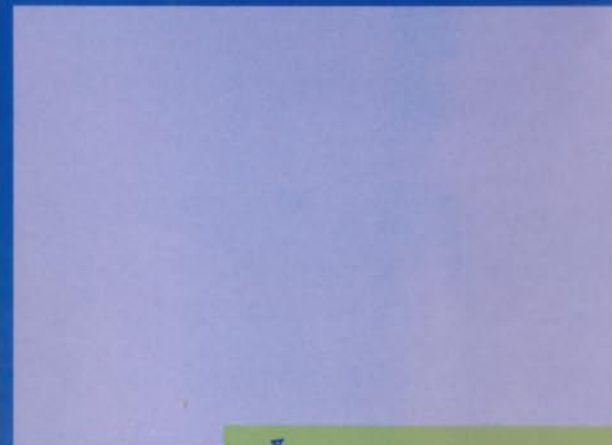

The adventure company guaranteed to give you an experience like no other. Our flights are suitable for all levels of flyer from beginner through to the most experienced.

The BAC 167 Strikemaster is a proven military strike aircraft and has been in operation for over 30 years throughout the worlds airforces. Ours was utilised by the Royal New Zealand Air force up until 1993 as a lead in trainer to more advanced jet fighters. The Strikemaster has proven to be a very reliable and capable aircraft, built by British Aerospace it is powered by a single Rolls Royce Viper jet engine. It has the ability to carry over 2,000 lbs of ordnance in the form of guns, rockets and bombs with a healthy range of operation and capable of speeds between 145 and 820km/hr. The cockpit configuration is two seats side-by-side which is ideal for training situations and the large area cabin glass makes viewing excellent. The aircraft is fully aerobatic which means high speed loops or barrel rolls can easily be done during which you can experience forces in excess of 4G's.

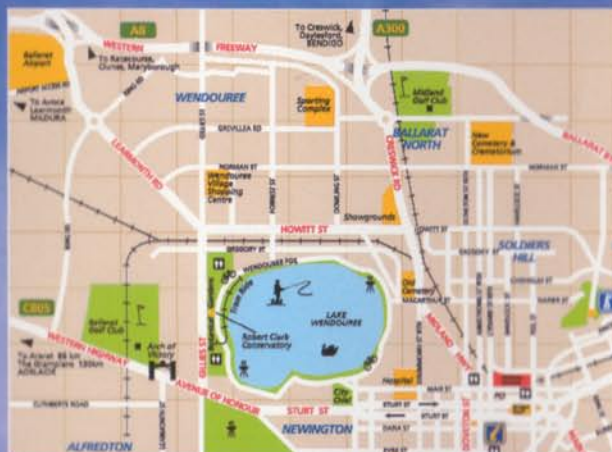

All safety precautions are taken including the wearing of parachutes and oxygen masks at all times. The cabin is pressurised, air-conditioned and very comfortable with an intercom between pilot and passenger. We strongly recommend interaction and even give you the opportunity to fly the jet for yourself. Australian Jet Adventures caters for individuals, group bookings and corporate customers and a flight makes an ideal gift, staff reward or client incentive.

I look forward to meeting you and providing the experience of a lifetime.

Darren DeRoia

AUSTRALIAN JET ADVENTURES

EXPERIENCE YOUR VERY OWN TOP GUN ADVENTURE

- Reach speeds of up to 800kph
- Design and execute your own sortie
- Try high speed barrel rolls or loops
- Pull 4.5G's in a genuine military attack aircraft

This really is the ultimate high!

Take the opportunity of a lifetime and experience exactly what top gun pilots do in aircraft of this calibre. After stepping into a genuine flight suit, strapping on a parachute, fighter pilot helmet and oxygen mask you're ready to hop into position right next to the pilot. Feel the controls in your hand, experience thrust as you've never felt it before, even take the opportunity to fly this 3,700 plus kW jet for yourself.

For the ultimate once-in-a-lifetime experience there is no better than Australian Jet Adventures.

- The ultimate unforgettable adventure
- The gift of a lifetime
- Ideal for corporate incentives
- A natural adrenalin high for all ages

CALL THIS HOTLINE NOW 03 5339 2769

1

Start at the briefing room for a detailed preflight briefing.

2

Strap in and be familiarised with all controls, check safety equipment and oxygen masks.

3

Start the engine and begin the process of warming the Rolls Royce Viper jet turbine, then taxi into position on the runway ready for take off.

4

Blast off, airborne in 300 metres, reach 400kph in under 1000 metres, you are speeding down the runway and feeling the awesome power as the aircraft leaves the ground.

5

Begin your planned sortie as you experience up to 4G's during air combat manoeuvres.

6

Back to land. Feel the excitement as the tyres hit the runway, then taxi back for your final debriefing session.

7

"You've done it!" and you have your own certificate to prove it. Wow! What a feeling.
