## **Re: Fear Factor**

Dear Christine and Darren

I trust you are well after the Australia Day weekend and that you are both relaxed and ready for a long hot summer!

I feel the need to write and express how completely grateful and thoroughly impressed I was with Australian Jet Adventures during our filming for Channel 9's Fear Factor show. You both worked so hard and yet maintained a genuinely friendly and purely professional approach to our crew.

Your help in my pre-production work was fantastic, you provided me with all of the information I needed and again, operated with a 'can do' approach to everything. On the day... need I say more... you and your team were perfect, I couldn't have asked for more.

The overall shoot went exceptionally well and we have some great footage.

Please can you provide me with a high res jpg of your logo with the web address design, so that I can use it as a logo end credit.

Once again, thank you sincerely for all of your help and support, it's been a complete pleasure to work with you... and I won't hesitate in spreading the word amongst our industry.

Warmest regards and a big thanks!

**WALTER COLLINS**  
Segment Producer  
Fear Factor.
